AIA AMARILLO DESIGN AWARDS

All entries will be evaluated on Excellence in Design, regardless of size, budget, or type. The number of Awards will be at the discretion of the jury. The jury proceedings are not open to non-committee members nor the public.

PROJECT ELIGIBILITY

To be considered eligible for an AIA Amarillo Design Award, projects must be submitted under the following requirements:

- » Entries must be projects designed by a Registered Architect in Amarillo or the surrounding region.
- » For all completed Architectural projects, construction must have been completed after January 1, 2018.
- » Firms may submit an unlimited number of entries.
- » Entries shall be deemed eligible even if the submitting Architect is not the sole Architect involved. Where one Architect is not the sole author, all participants substantially contributing to the design of the project must be given credit as part of the submission. For multi-building projects, the Architect submitting the project (or portion thereof) shall designate the authorship of each portion of the project.
- » AIA Amarillo does not accept responsibility for errors in submission.
- » Projects cannot have previously won an AIA Amarillo Design Award (with the exception of a project that previously won Unbuilt Award submitted herein as a Constructed Project).
- » The design architect must have been registered with the Texas Board of Architectural Examiners (TBAE) at the time the project was executed. Projects must be submitted in the name of the firm that executed the commission. If that firm has been dissolved or its name has been changed, an individual or successor firm may enter projects in the name of the firm in effect at the time the project was executed.
- » Unbuilt projects must have been intended for construction, and cannot be eligible if under construction.
- » Objects, interiors, graphics, and urban design & planning are all eligible for submittal.
